3. Director's Report and Board Approval Requests

a. Executive Director, Shawn Burr, presented his director’s report as follows:

Mr. Burr would like to 

**CONTINUE**

to recognize Staff across the Authority who continue to go above and beyond to ensure our quality services are performed and resident and participant needs are taken care of especially during this long-lasting pandemic! They continue to do a remarkable job day in and day out!

Mr. Burr RHA continues to monitor and adhere to new Federal, State, and Local regulations, recommendations, and Executive Orders related to the pandemic as we receive them. Bob and staff continue to use the new sanitizing PURUS system following a schedule for our sites. Visitor restrictions and mask-wearing have been relaxed somewhat, and masks are optional, but required to be worn when social distancing cannot be adhered to. Staff who prefer to wear a mask have been provided a notice template to put on their door and all staff has been reminded to respect the choice of others. Community rooms are now open with defined hours and residents must follow our safety protocols. The Executive Team monitors current conditions daily and meets weekly to review and discuss our processes.

Mr. Burr shared that our 117 Emergency Housing Vouchers by HUD as a result of the RESCUE Plan, 112 have been issued in accordance with the process we developed with the Continuum of Care. We have housed 70 applicants so far and 42 are searching for housing. The RHA team has done a great job implementing and continues to assist those looking for units. HUD will be reallocating unused EHV’s in the near future.

Mr. Burr shared that our Community Choice Demonstration RHA Team is working very hard on this with the HUD team. The RHA team continues to move the project forward meeting regularly with HUD and its consultants.

Mr. Burr reported that Trillium’s COVID testing/Primary Care services for our residents continue with April’s schedule moving along. We will be continuing our partnership and expanding services where we can. Melissa and Harolda are also working together to facilitate COVID Booster clinics at our sites in partnership with the Health Dept.

Mr. Burr reported that Staff continues to be involved in community projects and report on them in their Board reports. RMAPI Housing Committee which will now be a Housing Working Group that will focus on our community’s full housing system, City FEC Program Initiative, Connected Communities Housing Committee, Private Sector Rental Market Study, RUBL and Benefits Cliff Project are a few that are in the works. I really appreciate their efforts in representing RHA on critical projects in our community and their extra efforts are commendable.
Mr. Burr reported that our Strategic Planning Team met last week to review and edit a rough draft and fill in the missing pieces. The team has been very busy! Thank you to our Commissioners for their involvement. We will be presenting the draft plan to the Finance Committee in June.

Mr. Burr reported that the Annual Plan draft has been circulated to you and will be presented as the final draft at the June Public Housing Committee.

Mr. Burr shared that he continues to participate in the Mayor’s Quality Housing Task Force, and we are hosting the in-person meetings here at RHA. We have met weekly and have collected a lot of data and are defining what “quality” means in housing. We are currently fine-tuning our draft recommendations and will be presenting them to the mayor. I am very excited to be part of this and will be meeting with key staff to gather their perspectives.

Mr. Burr shared he continues to participate in the final draft of the North Inner Loop Planning project can be found here: Inner Loop North | Transformation Study | Rochester, New York.

Mr. Burr shared he is participating in the “Peer Cities Challenge” on the Rochester team. I had been asked to be part of the Rochester team when the City submitted the application and now we are off and running! Rochester was one of nine cities selected to participate and The Challenge connects cities through a series of meetings and resources to learn from each other about what is working and not working relative to the housing needs of the respective communities in an effort to advance housing goals. Housing Solutions Lab Announces Peer Cities Network Selections – NYU Furman Center.

Mr. Burr shared that RHA is also participating in discussions on how we can implement a “Public Housing – Public School Partnership” that addresses homelessness in school-age children and their families. Boston has implemented a successful model and we are looking at how that could work here in Rochester. Boston Housing Authority - Boston Housing Authority

Mr. Burr gave an update regarding NYSPHADA Update: The Legislative Committee continues to work hard on advocating at the State level for funding for PHA’s, especially upstate. The recent push is for more ERAP funds for upstate PHA’s as we all have significant arrears.

Mr. Burr shared that evictions are flooding our courts and RHA has worked diligently with its residents and program participants in assisting them in avoiding eviction. NLHIC released a new brief, “Promoting Housing Stability through Just Cause Eviction Legislation.” Just cause – also known as “good cause” or “for cause” – eviction laws are legal protections that make the lease renewal process more predictable, empower tenants to advocate for better living conditions without fear of retaliation, and promote long-term housing stability for low-income and marginalized renters. The new brief overview of the goals of just cause legislation shares examples of existing just cause protections and offers recommendations about ways to advance just cause legislation at the local, state, and federal levels. The end of a lease term is a particularly vulnerable time for low-
income tenants. In many states and localities around the country, landlords are not required to provide a reason for evicting a tenant at the end of a lease term or for evicting a tenant without a lease (i.e., a resident with a month-to-month tenancy). Moreover, landlords who are unable to evict a tenant during their lease term may choose not to renew the tenant’s lease and use the lease holdover as grounds for eviction. A tenant at the end of their lease is also at risk of unreasonable rental increases. Just cause eviction laws to aim to benefit low-income tenants by:

- Protecting renters from evictions for no fault of their own.
- Delivering a sense of stability to tenants.
- Discouraging renters from self-evicting when they receive eviction notices from landlords.
- Empowering tenants experiencing poor living conditions, discrimination, or other illegal landlord behavior to advocate for improvements with landlords or file complaints without fear of retaliation.
- In some cases, protecting tenants from unreasonable rent increases.

Among other recommendations, the brief urges states and localities to advance just cause legislation to ensure tenants at the end of their lease have the ability to renew if they have not violated the legal terms of their lease; provide limits on exorbitant rental increases to prevent renters from becoming extremely rent-burdened or experiencing displacement, and ensure adequate written notice documenting the cause for eviction and providing sufficient time for tenants to either fight their case in court or find a new home. The brief also recommends that local courts and lawmakers should establish stronger mechanisms to collect and analyze eviction filing and judgment data to help housing counselors, legal aid providers, and policymakers better understand and serve low-income renters, enforce existing tenant protections, and understand the impact of state and local tenant protections for the purpose of informing future advocacy and implementation. For more information about existing state and local tenant protections, see NLIHC’s Tenant.

ROCHESTER HOUSING AUTHORITY
REGULAR BOARD MEETING

We continue to work with our developer partner to move the Federal St project forward in coordination with NYS HCR, NYS OTDA, HUD, and City of Roch. We are communicating regularly with HUD on the RAD conversion and the City on the coordination between agencies as the project moves forward. A resident meeting was held, and staff will be meeting 1:1 with residents that will need to move while their unit is being renovated now that we have a draft timeline. Todd will be involved from here on out with preparing necessary resolutions and representing RHA through the closing process.

- Our next RAD project will be Parliament/Luther, and we are working with our development team. Design plans for renovation and redevelopment are being finalized by our A/E and environmental firms. Weekly meetings continue. We will be scheduling a project presentation meeting with HCR in early June.

- Our Glenwood-Fernwood development project is moving along, and we are combining it with the RAD project as a more competitive LIHTC application. Currently, we are envisioning 2 phases but now may have to consider one very large project in order to get enough funding sources to cover the costs. We have met with the City’s development team and other departments to review the proposed plans, which have been favorable. We continue to fine-tune the design to be ready for the next LIHTC RFP. We held two resident meetings at Glenwood that were well attended and will schedule the next one when we have more definitive answers. We are “crunching the numbers” and will need to look for alternative funding to ensure a viable project.

- Atlantic Townhouses Site Upgrades (Design Phase)
  - The City of Rochester’s Zoning Department approved the trash tote design on the Atlantic Avenue side of the property at the 4-21-22 meeting. The project is being prepared by the RHA Procurement Department for public bid.

- Lexington Court Interior and Common Area Upgrades (planning Phase)
  - A schematic design review meeting took place with the project stakeholders on 4-26-22. The architect will now prepare bid-ready documents incorporating the expressed desire of the stakeholders.

- Scattered Site Parking Lot Project (Design Phase)
  - This project is out to the public bid opening date of 6-1-22.

- Bronson Court Site Upgrades – RHA has hired HUNT Architects & Engineers to design improvements to this site’s building exteriors and landscape. This project will fall under the “Changing the Face of Public Housing” initiative. The replacement of all old roofing will be Phase I of this projects. Phase II will include new siding, porches for the front of the units, and smaller decks for the rear. Phase III will incorporate landscaping with a gazebo, picnic tables, centralized grills, and light poles in each of the two courtyards. Phase I is the final design phase for the roof replacements. Will be a winter bid project. Phase II in the process of Design Development.

- Change the Face of the Public Housing project at Bond/Hamilton is moving along with the SAC application process for the demolition phase. We are working with the residents to determine relocation needs for each ahead of time. We are also working on the resident relocation plan. We are working with the City on the NEPA review, which is required to move forward with the HUD and City processes.

- The next steps for our Change the Face of Public Housing project at Edinburgh Street are the SAC application for demolition and the final plans and specifications for bidding.

- We discussed the Holland Townhouse Site Improvement Project; the Traffic Control Board approved the plan. I’ve discussed this with the City on a possible right of way that will allow the City-owned portion to become RHA property. More discussion with our City partners needs to take place, and the City team will be scheduled.
Our seven Section 32 homeownership homes SAC applications will be completed soon, but we did have a few drops off as their situations have changed. We’ve received 39 responses to a survey sent to our public housing single-family scattered-site residents to see who is interested in purchasing their home. Melissa’s team is working with each resident to determine eligibility and a path forward for them. The plan is to create a pipeline of residents and units and work with our HUD Field office and SAC to determine the best path forward for submitting applications to them. We are using NYSPop funds to perform physical needs assessments on each home and determine what repairs we will make before ownership is transferred.

- RHA’s mold remediation grant under the Housing-Related Hazards Capital Fund Program in the amount of $896,649 is moving forward, and the priority sites are Holland Townhouses and Bay-Zimmer to start. A scope will be created, and design professionals procured. We are waiting for HUD to fix a “glitch” and release the funds, so we can begin the process.
- We then reviewed the projects in the CFP Project Pipeline, which are all in various stages of planning and design.
